## **Goals and Programme:**

Like in other meetings of the research committee the programme will provide time and space for working on ongoing projects and for initiating new projects. Furthermore we will focus on how to do research in psychodrama practice. Design, research tools and procedures are to be presented and discussed.

### ***Dr. Celia Sales (Portugal)***

Will be our guest speaker and she will also to conduct a workshop.

She is a distinguished researcher in counselling and psychotherapy and very experienced with research designs and tools which are highly relevant and useful for psychodrama research. As she works closely with Robert Elliott (whom most of us met already in Edinburgh) we will be able to address all practical questions related to research in general and practitioner research in particular.
